Project Demo Planning

Date	29 October 2026	Maximum Marks	1 Mark
Team ID	EV-BI-04	Project Name	EV Market Performance Insights Dashboard

Project Demo Planning: A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

Demo Schedule & Section Responsibilities

S.No	Demo Section	Description	Duration	Responsible Member
1	**Introduction & Context**	Project goal, problem statement, target audience & market drivers.	2 mins	Team Lead
2	**Flask Web Architecture**	Responsive web portal walk-through & design integration.	2 mins	UI/Web Developer
3	**BI Insights Dashboard**	Manufacturer sales performance, market share & category metrics.	3 mins	BI Developer
4	**Research & Battery Analytics**	Battery tech (LFP/NMC/Solid State), pricing & CO_2 savings metrics.	3 mins	Data Analyst
5	**Executive Story Dashboard**	Navigating guided story points for strategic executive decision-making.	3 mins	Domain Expert
6	**Conclusion & Q&A**	Summary of outcomes, scalability overview & addressing stakeholder questions.	2 mins	All Members

Demo Flow Summary

Step	Activity	Notes
Step 1	Introduction & Problem Statement	Highlight the data fragmentation issue in the EV market and project scope.
Step 2	Solution Overview	Present Flask web portal integrated with Tableau Public dashboards.
Step 3	Live Feature Demonstration	Demonstrate dynamic multi-filters, manufacturer drill-down, and story views.
Step 4	Q&A Session	Open floor for evaluators' feedback and technical validation questions.
