PROJECT DESIGN PHASE-II

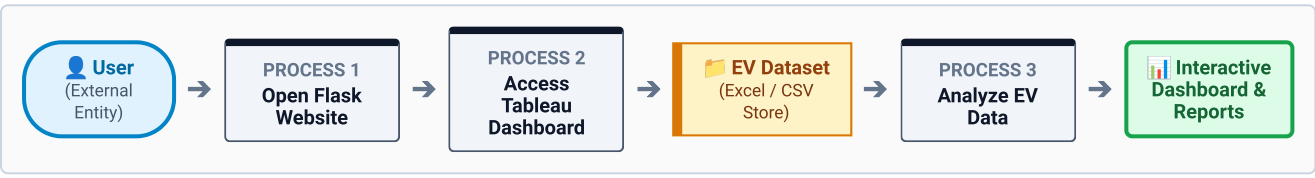

Data Flow Diagram & User Stories

Date	29 October 2026	**Maximum Marks**	4 Marks
Team ID	EV-BI-04	**Project Name**	EV Market Performance Insights Dashboard

Data Flow Diagrams (DFD): A DFD is a visual representation of information flows within a system, depicting how data enters, gets processed, interacts with data stores, and outputs reports.

Symbol Shape	Name	Description
Rounded Oval	External Entity	Person or system outside the project sending/receiving data (e.g., User).
Header Rectangle	Process	Activity transforming incoming data into outgoing data (e.g., Process 1, 2, 3).
Bordered Box	Data Store	Place where data is held for analytical use (e.g., EV Dataset - Excel/CSV).
Labeled Arrow	Data Flow	Movement of data between entities, processes, and stores.

DFD Level 0 — System Information Flow

User Stories Template

USN	User Type	Epic	User Story / Task	Acceptance Criteria	Priority	Release
US-1	Customer (Web User)	Dashboard	As a user, I want to view the EV Market Performance Dashboard so that I can analyze sales and market trends.	Dashboard opens successfully without errors.	High	Sprint-1
US-2	Customer / Analyst	BI Insights	As a user, I want to view the Business Intelligence Dashboard to compare manufacturers and customer ratings.	Dashboard displays manufacturer metrics correctly.	High	Sprint-1
US-3	Researcher / Academic	Research	As a user, I want to access the Research Dashboard to analyze battery technologies and sustainability metrics.	Research Dashboard loads successfully with full battery spec details.	High	Sprint-2
US-4	Executive / Stakeholder	Storytelling	As a user, I want to open the Story Dashboard so that I can understand the complete EV market narrative easily.	Story Dashboard is fully accessible with executive summary view.	Medium	Sprint-2
